SUMMARY

Final Year Software Engineering student expected to graduate in November 2026, with hands-on experience as a Full Stack Developer Intern at Telekom Malaysia (TM). Currently developing Agentic AI solutions for data ingestion workflows using n8n and AI Agents in collaboration with DataOps engineers. Passionate about software development, automation, and artificial intelligence, with strong problem-solving, analytical, and communication skills.

WORK EXPERIENCE

Full-Stack Developer | Internship March 2026 – Aug 2026
Telekom Malaysia (TM), Kuala Lumpur

- Designed and built an end-to-end Agentic AI workflow using n8n to automate ETL monitoring and recovery, replacing manual processes performed by DataOps engineers.
- Integrated Azure AI with enterprise APIs to analyse ETL execution logs and automatically rerun failed jobs.
- Developed an ETL monitoring dashboard using Next.js, featuring KPI cards, execution history, AI-generated insights, error analytics, and interactive performance visualisations.
- Collaborated with DataOps engineers to design and implement AI-powered workflow automation that reduced manual operational effort.
- Applied AI governance practices by validating AI-generated outputs and ensuring reliable, responsible automation.

Freelance Web Developer | Pusat Kaunseling Harmony Website Nov 2025 – Dec 2025
Pusat Pembelajaran Komuniti Chowkit, Kuala Lumpur

- Designed and developed a full promotional website for a community counselling initiative, from requirements gathering to deployment.
- Conducted stakeholder interviews to define content structure, features, and UX preferences; iterated based on feedback.
- Performed functional testing, UI/UX validation, and cross-device responsiveness checks prior to handover.

PROJECTS

MediBond: A Digital Assistant for Elderly Medication Support with Caregiver Oct 2025 - Jan 2026
Integration | Final Year project (FYP) | Gold Award, 12th ie-RIICH International Exhibition (2026)

React Native (Expo), Supabase (Postgres)

- Developed a mobile application with Elder and Caregiver roles, implementing role-based authentication, real-time medication reminder scheduling, and push notification logic using React Native Expo and Supabase.
- Conducted functional and usability testing across reminder scheduling, role-based access, notification logic, and elder-friendly UI/UX to ensure accessibility and data accuracy.

MySanding Bridal – Real Client Website (Agile SCRUM Project) Feb 2025 - Aug 2025
Laravel, Supabase (Postgres), Jira, Cloudinary API

- Gathered client requirements to understand booking and service workflows.
- Participated in Agile SCRUM ceremonies, including sprint planning and reviews.
- Performed functional testing, UI/UX validation, and defect tracking using Jira.

PROJECTS

Recipedia – Mobile Recipe ApplicationFeb 2025 - Aug 2025

Flutter, Dart, Firebase, Cloudinary API

- Built CRUD features for recipes, favorites, community sharing, comments, and likes.
- Conducted functional and usability testing on navigation, form validation, and user interactions.
- Verified UI responsiveness and interaction accuracy across multiple screens.

EDUCATION

Bachelor of Software Engineering (Software Education) with HonoursOct 2022 - Present

Universiti Pendidikan Sultan Idris (UPSI) | Expected Graduation: November 2026

- Current CGPA : 3.76
- Dean List every semester (Semester 1 until Semester 7)

Science Stream Module 1 MatriculationOct 2020 - July 2022

Kolej Matrikulasi Perak (KMPK)

- CGPA: 3.84

Sijil Pelajaran Malaysia (SPM)Feb 2015 - Nov 2019

Maktab Rendah Sains Mara Lenggong (MRSM)

- Pass

SKILLS

- Programming Languages:** JavaScript, TypeScript, PHP
- Web Development:** HTML, CSS, Next.js, Laravel
- Mobile Development:** React Native (Expo), Flutter
- AI & Automation:** N8N Workflow Automation, Agentic AI, Azure OpenAI, Gemini API
- Databases:** Supabase, PostgreSQL, MySQL, Firebase
- API & Integration:** REST API
- Tools:** Git, GitHub, Jira, Figma, Google Cloud
- Methodologies:** Agile SCRUM, Software Development Life Cycle (SDLC)
- Soft Skills:** Analytical Thinking, Communication, Teamwork, Adaptability

LANGUAGES

- Malay - Native
- English - Fluent

CERTIFICATION & TRAINING

- Start Writing Prompts like a Pro - Google (2026)
- The 12th International Exhibition of Research, Ideas, & Innovation on Creativity and Humanizing (12th ie-RIICH 2026) - UPSI (2026)
- User Experience Bootcamp (UX) - K-Youth Development Programme Track B (UPSI) (2025)
- Digital Freelancing in Web Design & IT Workstream MOHE-MDEC Global Outsourcing Talent (GOT) - Malaysia Digital Economy Corporation (MDEC) (2025)
- Python Programming Fundamentals - Data Science Association (2025)
- AI for MY Future - Microsoft (2025)
- AI for Beginners - RDC Tanjong Malim (2025)
- T.U.B Spark Unity Bootcamp - UPSI (2025)
- CodeCraft AI Integration Challenge (CCAIC) - TARUMT (2024)
